December, 2022

## FROM THE CHAIRMAN'S DESK

I am extremely happy that the latest version of the e-magazine Reflections has been released. SICA College has Arts, Journalism, Science, Commerce and Management students. Reading and writing are of great importance in Journalism and Arts. It is necessary to read before writing. If you want to write one page, you have to read 100 pages first. I would like to say that all the students must always read one book. Reading will end your inertia. It will open a whole new world in front of you.

By writing you will develop your thought process. You will learn to think. Reading and writing are important in other subjects as well. In the subject of Management, reading and writing leads to creation of innovative ideas. Apart from this, going outside the four walls of the college and seeing the world also increase your experiences and it gives direction to your writing. In today's world, all subjects have become related to each other. In the interdisciplinary subjects, you move from one subject to another but to understand yourself and explain it to others, you need to keep on reading and develop your writing ability. The meaning of writing is not only the subject of your course, but also jotting down your thoughts, your experiences, travel memoirs, reports, thoughts of great men, story, poetry etc. If you study every day and write every day, then no one can stop you from being successful.

Best wishes

**FROM THE MANAGING TRUSTEE'S DESK**

**It's a matter of immense pleasure that the second edition of our E-magazine Reflections is coming out. The college magazine is the medium to bring out the hidden creativity of students and show the flight of their imagination. The happiness of watching the creativity of students cannot be measured. Our students have achieved many milestones and have done exceedingly well in academics and sports. This is the second year of NEP and I am happy that our students have done Internship from institutions and organisations with utmost honesty and integrity. It gave them the first hand experience of the functioning of the corporate world.**

**One thing that is essential for today's youth is the development of soft skills that include leadership qualities and proper communication. An emphatic communicator can inspire and motivate his people to move ahead and achieve higher limits of success. It is also our effort to make students move towards Innovation and improvisation and follow the ethical path to achieve greater heights of success.**

**I extend my appreciation to the Principal & her team for preparing the students for various competitions & getting laurels to the banner in the recent past. I also appreciate the students who secured good ranks in the university merit & excelled in various courses. Keep on exploring new areas and techniques of teaching and learning and contribute towards a better future for the coming generations.**

**Wishing you all the best.**

## MESSAGE FROM THE DIRECTOR

I am very happy and impressed that the SICA College has brought forth its college magazine and I congratulate the Principal, teachers and students for this successful venture. I always felt that the college continually strives to provide an accessible, affordable and high quality education to boys and girls offering any of its courses and that our teachers have been attempting to provide a climate of intellectual growth in all its disciplines. The college counts the enthusiasm and expertise of its teaching faculty among its greatest strengths.

I would like to give my special blessings to the editorial committee of the college magazine that their efforts may bring forth the hidden potentials students and enhance their creative thinking. I am sure that this will add to the enhancement of the educational standing of our institution.

With best wishes.

**Dr. Usha Krishnan**

**Director  
SICA College**

## MESSAGE FROM THE PRINCIPAL

**Beloved Students,**

It is my pleasure to wish you happiness and success in life through our magazine Reflections.

The college magazine offers an opportunity of expressing one's views and serves as a platform for interaction among like minded people.

Learning is a continuous process. Education illuminates the mind and paves the way for success. Education is the medium of creating a change in society and building a harmonious world.

Here at SICA College, our aim is to create an educative environment which is conducive for the overall development and growth of students. We are resolute to provide education which readies the enthusiastic young students to face the world with conviction and confidence. I wish and hope that our students fulfill their dreams and contribute towards nation building.

I congratulate the editorial board, staff and students whose hard work has brought forth this excellent issue of e-magazine Reflections. Through this e-magazine students have tried to express their thoughts and ideas in a very beautiful manner. Students should realise their potential and unleash their creativity.

Wish you all the very best. A glorious future awaits you.

**Dr. Taranjeet Sood**

**Principal  
SICA College**

## EDITORIAL

### EXPRESS YOURSELF

The new issue of the students' e-magazine Reflections is in front of you. The articles, poems, memoirs, slogans, etc. of the students have been included in this e-magazine. Along with this, sketches, photographs, and paintings show the multi-faceted talent of SICA College students. The purpose of releasing this e-magazine is to promote reading and writing skills among students. We have also emphasized that the students also learn the skills related to the publication. Writing, painting, and photography are different ways to express yourself. Whatever we see, whatever we think, we express it from our perspective. Expressions give a positive and creative form to the energy of the students. The e-magazine also transmits expression.

Students contributed to the planning, content writing, and design of this e-magazine. The e-magazine covers various activities that have taken place in the college since April this year. This magazine has been displayed in the e-version because it can easily reach everyone through their mobiles. The articles of the faculties have also been included in the e-magazine.

## उड़ान

छूने को बुलंदियां, आसमान के लिए,  
पंखों में भरो हौसला, उड़ान के लिए।

जिन्दगी जब चाहे जैसी ले परीक्षा,  
तैयार रहो हरदम, इम्तिहान के लिए।

रखा है मंजिलों की राह पांव अगर,  
चिन्ता न करना, देह जान के लिए।

कोई कुछ कहे या कोई कुछ करें,  
पीछे ना मुड़ना, इस जहान के लिए।

विवेक, सभ्यता संग संग हो हमेशा,  
रखना नहीं जगह अज्ञान के लिए।

छल कपट में ये मन उलझाना नहीं,  
जीना हर दम, अपने सम्मान के लिए।

## Look at the sky

**I look at the stars, I look at the sky,  
With heavy heart, I start to cry.  
For every how and why,  
I put myself together and again I try.**

**There are many beautiful flowers that

**Sports Unite Hearts**

**Sports cut across all barriers and unite people. Sports find embodiment in the old Olympics. The craze of adventurous and thrilling sports is rapidly increasing in the world and people of all the age groups are participating in it. The young blood is full of aggression and courage and actively takes part in games like Mountain Biking, Skiing etc.**

**Sports play a major role in keeping a person fit and fine. It increases the blood flow in the entire body. The immunity of the body increases by playing outdoor sports. Sports make us free from these troubles, tensions and concerns. These are helpful in proper operation of the various organs of the body. The value of sports is today recognized by all the educationists. Books develop our mind but games develop our body.**

**Never Give Up**

**Never give up (what does it mean) or (what this words imply). I think as a child when we slipped from stairs or when we fell on the ground, we started crying and our mother used to tell us hey!! Brave kiddo, don't cry and don't give up. Try to stand by yourself.**

**As we grew, young life also taught us to never give up on anything in any condition or any situation. Just move forward with your strong will and you get what you want.**

**Sometimes we are at a stage where we are just puppets of everyone. We don't think for ourselves and we give up. But when we move forward we learn not to give up easily. Life is so much interesting, joyfull and beautiful and big as our imagination.**

## Independence Day | *India at 75*

Every INDEPENDENCE DAY, the entire nation gets soaked in the national fervour. There is a sense of patriotism in the air and each of us looks forward to do something remarkable for our country.

As our Tiranga is the symbol of 'Free India', whenever I look at our flag proudly, it questions, "What is happening to India"? Why are people mostly draping me over the coffins rather than to hoist? My nation is losing brave soldiers day by day. I want to inculcate a sense of conquest and pride among Indians where hoisting signifies the rise of a new nation. Hearts and minds are bustling with questions regarding true freedom... as one day we had our freedom and that doesn't mean that it was only for that day. We all acknowledge our privilege of being born in Free India and celebrated the 75th Independence Day of our country.

I agree that we have become independent after lots of hardships and sacrifices of the brave Indian freedom fighters. India is a progressive country and is surely developing by leaps and bounds in various arenas. But it still lacks behind in many basic societal and budgetary aspects even after so many years of Independence.

We need to focus on our country and true freedom of its people. We want to be free of a verbose liberty. We want freedom from heinous crimes. Women of today need to be freed from the cudgels of gender bias. The questions are unanswered- when we will be freed from the shackles of corruption and black money or freedom from cultural stereotypes, when the manacles of poverty will break .....when!

Emotions stirred, and patriotism unleashed, people have different ways to declare their love for the nation. For some, freedom is where one is free to speak without fear of oppression and harassment and a country where all fellow citizens get access to food, clean water, education and healthcare,

where middle class people want to be free from the price hikes and inflation, where freedom is also a state of mind that ushers in an aura of optimism to enjoy living in one of the biggest democracies of the world.

In fact, India has one-fifth of the world's youth population. Having a large youth population is advantageous because young people are inventive, aware and fairly open-minded. The best thing about young populace is that they love to explore the world and welcome various cultures with open arms. Thus, we all should look forward to be free and independent in the actual sense.

Furthermore, as to mark the 75th Independence Day, Indian Government initiated 'Azadi Ka Amrit Mahotsav'. Under this initiative, there was a 'Har Ghar Tiranga' campaign with the theme 'Nation First, Always First' to encourage people to showcase Tiranga at home and hoist it. The Government also aimed to hoist 200 million Tricolours on the special occasion. As all this shows true patriotism of Indians. Small gestures such as buying a flag or painting one's face in tri-colour, or cap etc. are indeed just another way to commemorate the innate feelings of love for the country and show gratitude for the nation we live in.

In conclusion, we can say that by amending our actions for the welfare of our homeland, we can create a better place to live in.

यह जो चाहता है  
वही करता है ,  
अपने आगे किसी और की  
कहां चलने देता है |

कभी यह चाहता है कि आसमान में,  
पंछी बनकर उड़ने लगूं |  
तो कभी चाहता है कि  
शांति से सो जाऊं  
कभी यह चाहता है कि  
सब कुछ छोड़कर ,  
कहीं दूर चले जाऊं  
तो कभी चाहता है कि सब कुछ छोड़  
अपनों के साथ कुछ समय बिताऊं |  
कभी-कभी तो यह ट्रेन की गति  
सा तेज दौड़ने लगता है,  
तो कभी कछुए से भी  
धीरे चलने लगता है |  
यह जो चाहता है  
वही करता है ,  
अपने आगे किसी और की  
कहां चलने देता है |

कभी-कभी तो लगता है,  
यह चीज पता नहीं क्या है |  
जितना समझने की कोशिश करो इसे  
यह उतना ही उलझा देता है |  
कभी- कभी तो छोटी चीजों में  
अपनी खुशी ढूंढ लेता है ,  
तो कभी खुश होकर भी खुश नहीं होता |  
न जाने कितनी भावनाएं भरी हैं इसमें ,  
कभी यह हंसा कर रुला देता है ,

## दादी की याद

तारीख ४ फरवरी, पता है यह दिन मेरे लिए खास क्यों है, इस दिन मेरा जन्मदिन आता है और हम सब मिलकर बहुत मस्ती करते हैं। कई लोग तो मेरे लिए तोहफे भी लाते हैं, पर मुझे सबसे अच्छा तब लगता है, जब मेरी दादी मेरे लिए अपने हाथों से खीर बनाती है, दुनिया के महंगे से महंगे केक भी उनके हाथ की खीर की तुलना में कम है।

दादी रोज मुझे नई-नई कहानी सुनाती है, अच्छी-अच्छी, प्यारी-प्यारी परियों वाली। वह कहती है, मेरी परी तो तू ही है और मम्मी मुस्कुरा कर कहती है "चलो-चलो परी रानी सो जाओ कल स्कूल भी जाना है।" और मैं दादी से जिद करना शुरू कर देती हूँ कि "दादी, मम्मी को कहो ना अगर एक दिन देर से सो गई तो क्या हो जाएगा।" अचानक पीछे से मम्मी के डांटने की आवाज़ से मैं चौंक जाती हूँ, पर दादी की आवाज़ आती है "बहू शांत हो जाओ बच्ची है, मैं समझाती हूँ।" और मुझे प्यार से समझाके सुला देती है।

और आज पता है मेरी चोटी किसने बनाई, सोचो-सोचो, नहीं पता? चलो मैं बताती हूँ, मेरी प्यारी दादी ने। कहो, है ना सुंदर। तभी अचानक स्कूल की घंटी बजती है और राशि बोलते-बोलते चुप हो जाती है। इसे पहले मैं उसे कुछ कहती- राशि बोली "चलो निवेदिता घर जाने का समय हो गया।" और मैं चुपचाप बस यही सोचती रही, काश मेरी दादी भी आज मेरे पास होती तो वह भी मेरे जन्मदिन पर मेरे लिए खीर बनाती, मुझे अच्छी-अच्छी कहानियां सुनाती, मेरे बाल बनाती और मुझे डांट से बचाती।

## दशहरा और दिवाली बचपन वाली

## संस्मरण

बचपन में ही आते थे दीवाली और दशहरा यार वो अब तो जिम्मेदारियों में ही गुजर जाते हैं सब त्योहार तो, बचपन में दशहरे का उत्साह भी कुछ अलग होता था , वो दशहरे की शाम का इंतजार रहता था , हां क्योंकि पापा के साथ शाम को रावण देखने और दशहरे के मेले में भी तो जाना होता था, फिर आकर दोस्तों के साथ मोहल्ले का रावण भी तो जलाना होता है। अब वो पहले जैसे दिन कहां, त्योहार कहां वो उत्साह कहां, अब तो सिर्फ जिम्मेदारियों के बोझ तले ही गुजर रही है हर शाम यहां.....।

दशहरे के दूसरे दिन सुबह की एक अलग ही खुशी होती थी। सुबह जल्दी उठकर सबको सोना देने जाना है, उसकी उत्सुकता ही अलग होती थी।

सुबह जल्दी उठकर सोना देने जाते थे , तो साथ में कहीं से एक रुपए का सिक्का तो कहीं से चॉकलेट लाते थे , वो एक रुपए की खुशी आज के लाखों रुपए नहीं दे सकते, न वो चॉकलेट की खुशी आज के पिज्जा ओर बर्गर लौटा पाते हैं।

वो बचपन वाले त्योहार अब कहां, अब तो सब बदल गया है , किसी के कंधों पर दुनियादारी का बोझ तो किसी के सर पर अपने सपने पूरे करके का टेंशन है।

दशहरे से ही दीवाली का इंतजार रहता था , वो बचपन था यार। इस दिल में अलग ही खुशियों का पहाड़ रहता था। वो खुशियां का पहाड़ अब कहां....

अब वो बचपन वाली दीवाली कहां अब तो , सुनसान कमरे में भी लगती मौज है ,

दीवाली आ रही है। पापा, गिफ्ट, पटाखे और नए कपड़े दिलवाएंगे, उसका भी इंतजार रहता था , हां जैसे-जैसे दीवाली पास आती थी, उत्सुकता बढ़ती जाती थी। पापा मुझे कपड़े और पटाखे दिलवाते थे।

यार वो बचपन के दिन भी क्या दिन थे, जब हम ये सब पाकर बहुत खुश हो जाते थे...

थाने में उस गुमशुदा बचपन की रिपोर्ट लिखवाऊं क्या , कहां गुम गया बचपन वो उसे ढूंढने के लिए मैं पुलिस वालों के साथ जाऊं क्या।

दीवाली के दिन तो खुद ही नींद जल्दी खुल जाती थी और हम सुबह से घर को फूलों से सजाने में लग जाते थे।

और अब कब शाम होगी इसी के इंतजार में दिन निकल जाते थे। वो दिन क्या दिन थे, जब हम बचपन में दशहरा और दीवाली मनाते थे।

हम फिर शाम होने के इंतजार में लग जाते थे और कब शाम होगी और पूजा होगी और फिर पटाखे फोड़ने को मिलेंगे और जो मम्मी ने पकवान बनाए हैं वो भी तो खाने को मिलेंगे। इसी के इंतजार में वक्त निकाल जाता था और फिर पटाखे फोड़ने का वक्त आ जाता था। मम्मी, पापा, दादा, दादी, भाई के साथ हम दीवाली बनाते थे और फिर खा-पीकर सो जाते थे और ये दीवाली निकल जाती थी।

क्या पता था मैं सोऊंगा और वह बचपन वाली दीवाली कभी लौट कर ना आएगी। नहीं तो मैं सोता ही नहीं, जागकर उसे पकड़ कर रखता उस दीवाली को कि कहां जा रही हो, अभी भी मैं बच्चा हूँ। जिम्मेदारी सर पर है तो क्या हुआ, अभी ना जाओ कहीं। अभी भी मैं छोटा बच्चा हूँ, अभी भी मैं छोटा बच्चा हूँ.....

वो दिन भी क्या दिन थे जब हम बचपन में दीवाली और दशहरा मनाते थे ,

सब आज भी वैसा ही है पर वो बचपन वाला सुकून कहां वो खुशियां कहां।

बचपन में ही मनाते थे हम दशहरा और दीवाली यार, वो अब तो सिर्फ जिम्मेदारियों ने छीन लिए। सारे शौक सारे त्योहार तो, अब कहां आते हैं बचपन वाले त्योहार हमारे।

## बेटियां हैं अनमोल गहना

जब किसी के घर बेटी का जन्म होता है तो पूरे परिवार में खुशियां ही खुशियां आ जाती हैं। माता-पिता जब उसे देखते हैं तो उनकी खुशी का कोई पार नहीं होता। परिवार वाले दोस्त तरह-तरह के फोटो बनाकर, वीडियो बनाकर, विश करके अपना प्यार बरसाते हैं।

बेटियां परिवार का आधार होती हैं। जो भी इंसान बेटी के जन्म होने से दुःख मना रहा होता है वो शायद इस बात को भूल जाता है कि वह भी किसी की बेटी से ही इस धरती पर है। बेटियां हमारे घर का वो फूल है जो अपनी खुशबू परिवार में सदा बनाए रखता है। बेटी हमें सौभाग्य से मिलती है।

बेटी बचाओ बेटी पढ़ाओ, देश को प्रगति के पथ पर लाओ, बेटा अभिमान है तो बेटियां भी वरदान हैं। बेटी को तुम बोझ न मानना उनकी शिक्षा में कोई बाधा न डालना।

बेटियों को न मारें, उन्हें बचाएं और शिक्षा देकर आगे बढ़ाएं, बेटियों को जब मिलेगा सम्मान तभी प्रगति करेगा हिन्दुस्तान, बेटियां हैं अनमोल गहना, इसे कभी न खोना, पुराने विचारों को भुलाओ बेटी को अपनाओ, बेटी को पढ़ाओ, बेटियां हैं ईश्वर का सम्मान।

शिक्षित बेटी ही, शिक्षित परिवार की पहचान है, जिनके घर बेटी है उनके घर लक्ष्मी है। बेटियां नहीं है समस्या, बल्कि हर समस्या का हैं समाधान। इनका न करो अपमान।

## शायरी

हर किसी को ग़मो का खुलासा नहीं देते,  
मज़े लेने वाले कभी दिलासा नहीं देते,  
जो धड़कता है मेरे सीने में, वो कीमती है,  
हम हर किसी को यह असासा (संपत्ति) नहीं देते।।

इंसान को इंसान बनाती हैं किताबें,  
इंसान को जीने का हुनर सिखातीं हैं किताबें।  
मां बाप ने कहा था औलादों को कि बेटा पढ़ लो,

## मेरा देश विशेष है

माथे जिसके भव्य हिमालय टीके सा दिखलाता है,  
सागर जिसकी चरण धूली को छूकर-नित इठलाता है,  
विविध धर्म और विविध है भाषा मर्म सभी का एक है,  
भारत भूमि नाम है जिसका मेरा देश विशेष है।

## वो गर्मी की छुट्टी नानी के घर वाली!!

चलो गर्मी में नानी के घर चले जाते हैं..  
वो मीठे- मीठे प्यारे-प्यारे पलों को वापस लाते हैं..  
गर्मी की छुट्टियों में नानी के घर घूम आते हैं..!

नानी के घर जाकर हमारी शैतानिया चालू हो जाती थी.  
यह सब देखकर नानी हमको ढेर सारा प्यार करती थी..!

वो दूध- मलाई और पकवान बना-बना कर हमे खिलाती थी..  
इतना सब खिलाकर हमे खुश करती थी..!

और नानी के घर जाकर मम्मी की डांट-मार फीकी पड़ जाती थी..  
क्योंकि नानी के प्यार के सामने किसी कि भी नहीं चलती थी..!!  
नानी के प्यार के कारण ही तो ये नानी का घर कहा जाता था..  
क्योंकि यहां नानी से ज्यादा प्यार कोई नहीं कर पाता था..!!  
यार..  
अब आती है ये बचपन की यादें और वो नानी की प्यारी सी मीठी बातें..!!  
चलो गर्मी में नानी के घर चले जाते हैं..!!!!

## पुकार

आज मैने न्याय की पुकार लगाई है  
आज मैने न्याय की पुकार लगाई है  
उन सभी मासूम लड़कियों के लिए,  
जिनका बचपन, उनके हाथ से खिलौने छीनकर  
चूल्हे की आग में झोंक दिया जाता है |  
जिनके हाथों से कलम को छीनकर,  
उनके हाथों में मेहंदी की लकीरें खेंच दी जाती हैं |  
मेरी पुकार उन लोगों से है,  
जहां मुझे बोझ समझकर, मेरे सपनों को कुचल  
दिया जाता है |  
और सौंप दिया जाता है, किसी दूसरे की जिम्मेदारी  
पर,  
आखिर क्यों, आखिर क्यों  
मुझे सौंप दिया जाता है, किसी दूसरे की जिम्मेदारी  
पर  
क्या मुझमे इतनी काबिलियत नहीं, कि मैं मेरे  
सपनों की उड़ान भर सकूं,  
दुनिया से कदम से कदम मिलाकर चल सकूं |  
क्या? मुझमें इतनी काबिलियत नहीं |  
क्यों मुझे घड़ी के कांटे से नापा जाता है,  
दिन हो चाहे रात मुझे ही क्यों,  
पाबंदी की जंजीरों को बांधा जाता है |  
मेरी गुहार उस इंसाफ की अदालत से है,  
जो गुनाह करने वाले उन दरिंदों को खुलेआम छोड़  
देते हैं |  
मेरी पुकार खुद मुझसे भी है,  
हां, मेरी पुकार खुद मुझसे भी है,  
कि क्यों मैने आवाज़ नहीं उठाई?  
क्यों मै चुप रही?  
काश!  
कि मैने पुकार लगाई होती |  
तो आज मेहंदी की लकीरों की जगह,  
हाथों में सपनों की डोर होती |  
हाथों में सपनों की डोर होती | |

## सबसे अच्छा साथी, हमारा आत्मविश्वास है

जब हम लोग कोई भी कर्म करते हैं तो उसके विशेष परिणाम को ध्यान में रखकर ही करते हैं। जब हमारी धारणा अनुसार परिणाम आता है, तब हम वह कर्म "सफल" मानते हैं, और जब धारणा अनुसार फल नहीं आता है तो हम उस कर्म को विफल मान लेते हैं। किसी भी कर्म के दो ही परिणाम हो सकते हैं- सफलता या विफलता।

हां कर्म का फल अपनी धारणा के अनुसार ही हो इसकी कोई गारंटी नहीं होती है। आपकी धारणा के अनुसार फल नहीं आया तो आप उसे विफल मान लेते हैं, और यही आपकी गलती है। कोई भी कर्म विफल नहीं होता। यदि आप केवल कर्म के फल का उद्देश्य लक्ष्य में रखकर कर्म करेंगे तो कर्म का जो फल आएगा उससे आपको लाभ नहीं होगा, बल्कि उससे नुकसान ही होगा। इसलिए केवल उद्देश्य ही नहीं अपितु उद्देश्य के जीवन में महत्व को ध्यान में रखकर, सकारात्मक ऊर्जा और सोच के साथ अवश्य कर्म करें। यह बात अत्यंत सूक्ष्म दृष्टि से समझने योग्य है। भाग्य और झूठ के साथ जितनी अधिक उम्मीद करेंगे वो उतना ही अधिक निराश करेंगे..., लेकिन कर्म और सत्य पर जितना आश्रित रहेंगे वो उम्मीद से सदैव अधिक ही देंगे।

## आया फिर स्वतंत्रता दिवस

आया फिर स्वतंत्रता दिवस देश भक्ति की लहर छाई है,  
जो देश की खातिर जिए-मरे फिर याद उनकी आई है।  
गौरी को मात देने वाला पृथ्वीराज सवार सा बाण चालक कहां,  
अकबर को चने चबाने वाला महाराणा प्रताप सा वीर कहां।।  
मुगलों से लोहा लेकर शिवाजी ने स्वराज्य का निर्माण किया,  
कभी मंगल, कभी भगत, गुलामी को नहीं स्वीकार किया।।  
अंग्रेजों के छक्के छुडान वालों में लक्ष्मीबाई का नाम काफी है,  
हिंद का नारा बुलंद रहे यहां सुभाष की चर्चा बाकी है।।  
गांधी ने सत्य और अहिंसा का जन-जन को पाठ पढाया था,  
लाल, बाल और पाल ने राष्ट्रवाद हमें सिखाया था।।  
जाति, धर्म को भूलकर देशद्रोहियों को देश से मिटाना है,  
नई पीढ़ी को अभिमन्यु सा गर्भ में देशभक्ति का पाठ पढ़ाना है।।  
बुद्ध, महावीर की जन्म भूम पर हम बौद्धिक स्वतंत्र हो जाएं,  
मन स्वतंत्र हो, जन हो, स्वतंत्रता का परचम फहराएं।।  
नमन उन वीरों को जिनके बलिदानों से यह स्वतंत्रता पाई है,  
आया फिर स्वतंत्रता दिवस देश भक्ति की लहर छाई है।।

## Constitution Day of India

**This year we celebrated our 8th Constitution Day or Samvidhan Diwas on 26 November, 2022. This day was started to commemorate Dr. Bhimrao Ramji Ambedkar on his 125th birth anniversary on 14 April, 2015.**

**The Foundation of Constitution Day was laid in 2015 during the Inauguration of Ambedkar Memorial in Mumbai.**

**The Government of India declared 26 November as the Constitution Day on 19 November, 2015 by a Gazette notification .**

**Dr. B. R. Ambedkar was an important member of Constituent Assembly and the Chairman of Drafting Committee. Drafting Committee made a draft of our constitution, therefore he is also known as the "Modern Manu of India". The other members of Drafting Committee were:**

- 1. Dr. B. R. Ambedkar (Chairman)**
- 2. N Gopalaswamy Ayyangar**
- 3. Alladi Krishnaswamy Ayyar**
- 4. Dr. K. M. Munshi**
- 5. Syed Mohammad Saadullah**
- 6. N. Madhava Rau (He replaced B. L. Mitter who resigned due to ill-health)**
- 7. T. T. Krishnamachari (He replaced D. P. Khaitan who died in 1948)**

**A Constitution is a supreme law of country. It is a collection of principles and rules that provide a path how a state will be governed. It provides political, social and economical equality, liberty, justice, law and procedure of government. It's a supreme power of India that gives power to other institutions.**

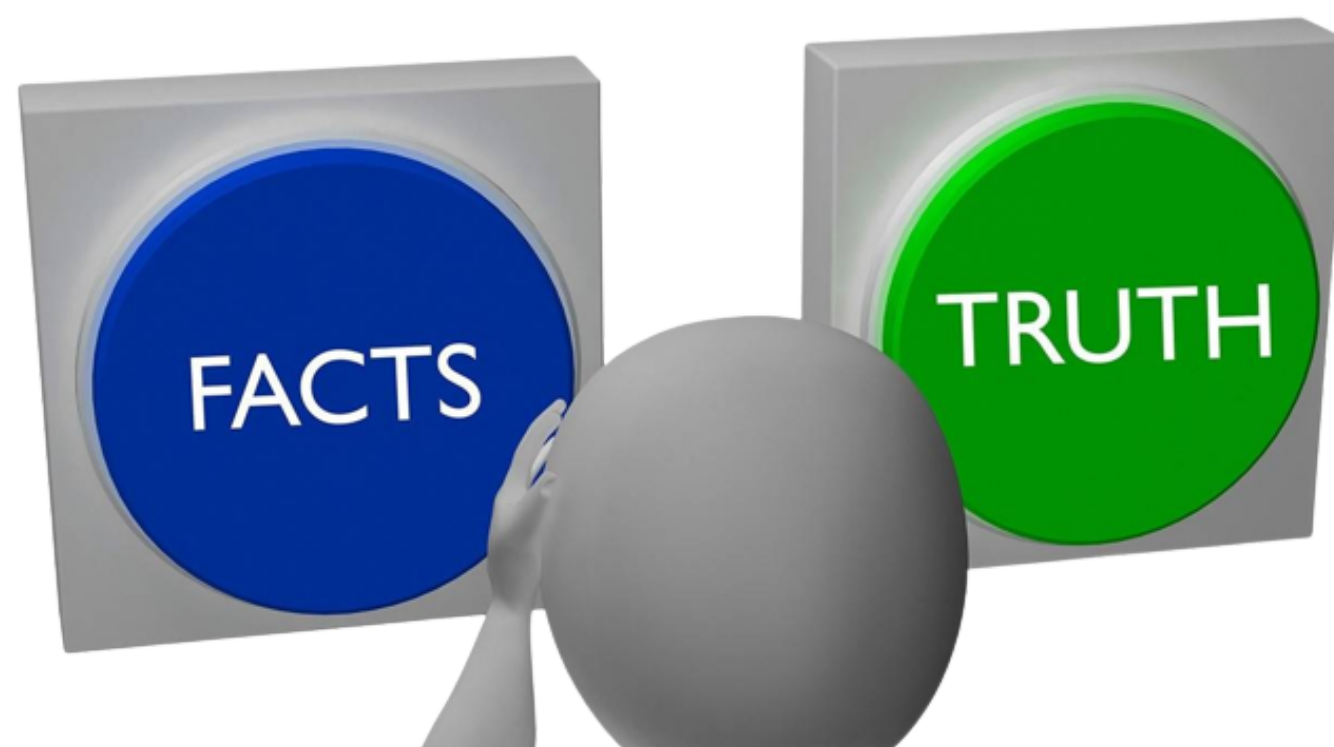

**On 26 November, 1949 the Constituent Assembly adopted the Constitution, which came into effect from 26 January 1950. The Constitution contained a Preamble, 22 parts, 395 articles and 8 schedules at the time of enactment. This day is celebrated to remember our duties for nation and to promote "Constitutional Values" among citizens. On 26 November we also celebrate "National Law Day".**

## Truth vs Fact

If we search the dictionary, it says that the truth is same as fact. Although, the Truth may not be a fact. And a fact may not necessarily be the truth. A fact is something that we know to be true. Some incidents we witnessed or someone informed about something. But, a fact may not always be the truth. But our own experiences are always our truth.

On my recent stay at a resort on the bank of river Narmada and amidst the Narmada hills in the outskirts of Indore, I experienced something splendid. At midnight, while sitting by the river gazing at a tall tree, the leaves of which were swaying with the flow of the wind, I realised how every other life than the human life is fully exposed to the possibilities and the risk of survival at the same time. Human life is illusory. We live in our illusions, our world is so secure, we have been confined to our comfort zones. I realised that every other creature is so different than us. They are fully exposed to life and to all the risks and possibilities of this existence.

We are so confined to our comfort zones and drowned in our own illusions that we are unable to understand the true nature of life and existence. The comforts of our illusory lives have moved us far away from the Truth.

The cage of illusions and comforts has filled us with fear. We have been entangled in such a way that this cage has become our life and coming out of it and facing the existence seems impossible and too risky. We do not want to experience what the life is actually about, what the existence actually is. All we want is to experience the best of comforts in life. Having variety of comforts is also our most important parameter for measuring success in life. But in this process, we often forget about happiness being the ultimate nature of any life in this existence. Our illusions have somehow moved us away from our real and ultimate nature.

## Calculus: The Study of Continuous Change

**“Without Mathematics, there's nothing you can do. Everything around you is Mathematics. Everything around you is numbers.”**

**-Shakuntala Devi**

**Calculus deals with two basic operations, differentiation and integration, and is the tool which is used by engineers to determine quantities such as rate of change and area. In fact, calculus is the mathematical "backbone" for dealing with problems where the variables change over time and other reference variables, and a basic understanding of calculus can be studied further and used to solve technical problems. It's more practical for building essential confidence. This means that a physical system is modeled and the "rate of change" equations (called differential equations) are used to describe the physical system, perform analysis, and form solutions under defined conditions.**

**Calculus covers the following:**

- 1.Differentiation: The method of finding an instantaneous change called "derivative" of various functions.**
- 2.How to use derivatives to solve various kinds of problems.**
- 3.Integration: The process of finding the antiderivatives of functions.**
- 4. Study of detailed methods for integrating functions of certain kinds.**
- 5.How to use integration to solve various geometric problems, such as computations of areas and volumes of certain regions.**

**Some examples of calculus in different fields:**

**Electrical engineering uses a calculus (integral) to determine the exact length of the power cable required to connect two substations that are several miles away. In Physics, to calculate the center of mass, Statisticians use calculations to evaluate survey data to help develop business plans for various companies. Because the survey contains different questions with different possible answers, calculus can help you predict the appropriate action more accurately.**
