ABOUT INDORE

Madhya Pradesh geographically represents the heart of India. Indore is the commercial capital of the state and a hub for all major business activities in the Western part of the state. It is a small cosmopolitan city playing the pivotal role in the commerce of Madhya Pradesh. The city is poised to become a software hub and also is the largest city of MP and is the commercial nerve center of MP. The city and its surroundings came under Maratha Empire on 18 May 1724 after Maratha Peshwa assumed the full control of Malwa. The tales of the glorious past are narrated by these splendid historical monuments and cast a magical spell on the visitors. Rani Ahilya Bai Holkar was a great architectural patron and spent a lot of money on the construction of many temples across the nation. The queen is taken in great regard by the people and as a tribute; her statue was built in the center of the city, near Rajwada. Indore has a direct connectivity to major cities of India. The airport of Indore has good infrastructure and facilities.
